iviggo.com launched on 5 January 2021 in Denmark with a video coaching and expert panel of 20 people, who has now grown to 126 experts and are represented in over 20 countries.

iviggo reaches out to the world through people like you who invest or become an Affiliated member and share iviggo with others.

If you see value in iviggo as a product and service, then share it with others - and they will do the same and then let iviggo work for you

Companies around the world need to choose how their products and services are seen, heard and found.

We at iviggo have chosen not to spend any money on advertising, social media, expensive sales staff and marketing expenses.

Instead, iviggo has chosen the word-of-mouth method where it all goes back to those who invest and become Affiliated members and are compensated as ambassadors for sharing iviggo with others.

This is how it works

When you recommend and attract others who want to invest and become Affiliated you get a commission from iviggo's revenue.

It is ok if you are not the type who wants to present the opportunity to others, then iviggo do it for you as we together help each other.

It is a win-win situation to help each other, and you end up getting commissions from members from all over the world by letting the network work with you.

iviggo uses a simple crowdfunding reward-based compensation without claims, binding and obligations.

Numbers and Facts

As an example, this means that when you refer 4 other co-investors within 2 to 4 weeks who, like you invest in an iviggo membership of only 20 Euro a month, and they do the same in the thread of 6 groups, then you and co-investors each get, within 3 to 6 months, a return of as much as 7.644 Euro per month.

A return you get every month for the rest of your life if everyone who has invested in an Affiliated membership stays on iviggo.

But who doesn't when the return is so great every month, with the modest investment of only 20 Euro plus some time and effort.

In total, 42 % of revenue goes back to you as you are compensated as an Affiliate member

The question you need to ask yourself now is:

Will it be valuable for me to have a passive income of 7.644 Euro pr. month?

Do I know 4 people - who, like myself, will invest and earn an extra income?

Do I have the right open and positive mindset going forward?

Do I have the modest time and effort that makes it possible?

Do I have 20 Euro I can invest per month?

If yes

Then you are well on your way

The next step is to contact the person who invited you to iviggo, so you can get answers to your questions and get iviggo.com personally presented to you.

iviggo is for you who see the possibilities immediately and want the most and best out of life right now - and not wait until next year.
